SKILLS

Python / AI / ML

YOLOv11m / OpenCV

FastAPI / Flask

React / Next.js / Web Apps

Flutter / Mobile Apps

n8n / LangChain

EDUCATION

BS Artificial Intelligence
COMSATS University Islamabad
2023 – 2027

FSc Pre-Engineering
Fauji Foundation
2021 – 2023

MUHAMMAD MAJID ALI

AI ENGINEER & FULL STACK DEVELOPER

SUMMARY

BS Artificial Intelligence student at COMSATS University Islamabad (2023–27) with hands-on experience in computer vision, AI web development, and full-stack solutions. Proficient in Python, YOLOv11m, FastAPI, React, and Flutter. Passionate about building robust, AI-integrated applications that solve real-world problems.

EXPERIENCE

AI / ML Intern

Pakistan Ordinance Factory

- Lane Detection AI: Autonomous Driving Lane Detector
- Weapon Detector: CCTV Weapon Detection AI
- AutoApply AI: Automated Job Application Platform

RECENT PROJECTS

- Jarvis AI Assistant:** Voice-activated intelligent assistant managing daily automated tasks.
- AI Image Generator:** Prompt-to-image AI tool generating stunning, high-fidelity graphics.
- AgriScan AI:** Smart AI farming assistant utilizing YOLOv11m to instantly detect crop diseases.
- Voter Search App:** Fast, mobile-optimized search portal for electoral data verification.
- Intrusion Detection:** Advanced deep learning system for robust network intrusion detection.
- FinTrack:** Comprehensive personal finance and budgeting tracker.
- Medic:** Hospital management platform for seamless doctor-patient scheduling.
- Visionary AI:** Neural network tool detecting deepfakes and manipulated images.
- Language Translation Tool:** Fast, context-aware machine translation tool for 50+ languages.

TECHNICAL EXPERTISE

- AI/ML:** Python, PyTorch, YOLOv11m, OpenCV, LLM, LangChain, CNN, TensorFlow
- Backend:** FastAPI, Flask, REST APIs, PostgreSQL, MongoDB, SQLite
- Frontend:** React, Next.js, TypeScript, JavaScript, TailwindCSS, HTML5
- Mobile & Automation:** Flutter, Dart, Firebase, Supabase, n8n Automation
- DevOps/Cloud:** Git, GitHub Actions, Docker, Streamlit, Google Cloud (GCP), Vercel, Render
